Abstract (en)
[origin: EP0058847A2] 1. A ribbon cassette which can be placed on a typewriter or similar office machine, having a storage compartment for a delivery spool and a winding spool for a ribbon, wherein the ribbon can be conveyed from the delivery spool, via two guide channels disposed spaced apart in the storage compartment, through a printing station of the machine and be wound back on the winding spool, characterised in that the bottoms (26, 28) of the two guide channels (23, 24) have an offset in height (16, 18) in relation to the bottom (30) of the storage compartment (5) so that a free space (50, 52), for example for the reception of drive parts of a correction device, is formed below each of the guide channels (23, 24) as a continuation of the bottom (30) of the storage compartment (5).
