Abstract (en)

An apparatus (10) for chiropractic therapy and massage comprises a housing (12) which is open at its top and cover means (27) stretched to cover the open side of the housing (12), on which a user may lies. The cover means (27) comprises at least two sheets (28, 29). Pressure means (16) includes a number of pressure rollers (108, 114, 120, 122) disposed in the housing (12) and adapted to roll to apply pressure on the body of the user lying on the cover means (27). A support frame (14) is provided in the housing (12) and supports the pressure means (16). A pair of pulleys (42, 44) are provided in the housing (12). A wire (18) is stretched between the pulleys (42, 44) to reciprocate the support frame (14).
