Abstract (en)
[origin: EP0059977A1] 1. A rear-ventilated facing for walls or facades consisting of a grid or lattice screen (2, 3) which holds the facing at a distance from the wall (1) to be faced and on which flush-abutting panels (5) are secured to form the facing, characterised in that a filler plastering (6) provided with a fabric inlay (7) is applied on to the panels (5) and a top plastering (8) is applied on to the filler plastering.
