Abstract (en)

[origin: EP0060241A1] 1. Test stand for high-trajectory firearms, particularly cannons or howitzers, having a support (13) for the mount or carriage, resp., of the high-trajectory firearm, said support being connected to a swivel base (3) which is rotatably mounted on a stationary base, characterised in that the support is connected to the swivel base tiltably about an axis (12) crossing or intersecting the swivel axis (4) of the swivel base (3) approximately perpendicularly by means of a pitch bearing mounted on the swivel base, the support (13) being lockable in the selected pitch position.
