Abstract (en)
[origin: EP0062195A2] 1. Power-driven screw-driving tool comprising 1.1 a wrench head casing (10, 40) including a ring (11) to receive a button die, 1.2 a support element (27) mounted movably at the wrench head casing (10, 40) capable to be applied to a fixed support and 1.3 a piston-cylinder-unit (28, 29) acting between the wrench head casing (10, 40) and the support element (27) and moving the wrench head casing relative to the support element, characterized in that 1.4 the wrench head casing (10, 40) contains a guideway (22) for the support element (27), 1.5 the support element (27) is displaceable in the guideway (22) and 1.6 the support element (27) freely projects from the one end of the guideway (22).
