Abstract (en)

[origin: EP0063428A2] A method of forming a key (50B) including providing a key blank (50A) of V-shaped transverse cross section so as to have two blade portions (55) joined by a base portion (56). The method further includes forming teeth on the blade portions (55) and then bending the blank (50A) to a substantially U-shaped transverse cross section.
