Abstract (en)

[origin: EP0063518A1] 1. Process for knitting an article to be closed on itself, and particularly a beret, process in which, on the same machine a first course of stitches (10) is formed with a knitting yarn, this first course is stored, the article is knitted with the knitting yarn up to a last course of stitches (11) and the respective stitches of the first and last courses of stitches are assembled two by two on a knitting element, characterized in that the two courses are bound by at least a stable yarn (40, 41; 80; 90) passing through either the pairs of stitches thus formed (10, 11) or the stitches of an assembly course (70, 71) obtained after knitting of said pairs of stitches.
