Abstract (en)
[origin: EP0064712A1] 1. Refrigerating container comprising a steel frame with upper (1) and lower (2) longitudinal bearers, lower cross-members, with corner posts, with an insulation (4), with an inner cladding comprising inner wall panels (5), and with indented outer wall panels (3) which are connected at the upper and lower edges to the longitudinal bearers (1, 2) and at the side edges to the corner posts, characterised in that indentation of the outer wall panels (3) extends in the vertical direction, and that indentation ends short of the edge of the outer wall panels (3) in a manner known per se, and that the connection of the indented outer wall panels (3) to the upper (1) and lower (2) longitudinal bearers and to the corner posts is formed as an encircling weld seam (8).
