Abstract (en)

1. A crane wagon provided with a platform and a movable counter weight device (6), wherein said counter weight device (6) is mounted underneath the platform at the level of the crane and is movable in a direction perpendicular to the track, so that in its extreme positions, said counter weight device does not engage the circulation clearance gauge of the wagon.

Abstract (fr)

Sous la plateforme (1), au niveau de la grue (2), est monté un contrepoids (6) déplaçable selon une direction perpendiculaire à la voie (5).
