Abstract (en)
[origin: EP0065756A2] 1. Process for preparing a bulky yarn by using a carding machine to produce a card web and dividing it into narrow strips of card web and adding to the strip of card web before the condenser a carrier yarn which is combined in the condenser with the strip of card web into a sliver, characterized in that, to increase the consolidation of the card web fibres into the carrier yarn, the sliver is, subsequent to the condensing, subjected to an additional false twist.
