Abstract (en)

[origin: US4458364A] A disposable towel, particularly for hairdressing salons, beauty shops or the like, is comprised by a support (1) of synthetic material bearing an intermediate layer (2) of defibered cellulose, and a non-woven layer (3) covering the intermediate layer (2) and secured with the latter to the support (1), by gluing, sealing or otherwise. On one side of the cut-out (4) for the neck of the wearer, there are provided tabs (5) for detachable securement to the other side of the towel. A small pocket (6) for a paper napkin (7) is provided at the upper part of the towel near an edge thereof. Another pocket (8) extends transversely of the midportion of the bottom of the towel, to receive cut hair, and has lateral internal compartments (9) for carrying barber's and beautician's implements. This latter pocket (8) may be folded against the support (1) and secured to the latter.
