Abstract (en)

[origin: WO8202592A1] A shackle (22) supporting the product to be weighed is lifted off the pendant (16) of an overhead conveyor (10) by a chain (42) driven in synchronism with the conveyor, and the chain then carries the shackle and the product which it is supporting across a weighing platform (44) before lowering the shackle back onto the pendant.

Abstract (fr)

Un crochet (22) supportant l'article a peser est souleve de la partie suspendue (16) d'un convoyeur aerien (10) par une chaine (42) entrainee en synchronisme avec le convoyeur, et la chaine transporte ensuite le crochet et le produit qui le supporte sur une plate-forme de pesage (44) avant de raccrocher le crochet a la partie suspendue.
