Abstract (en)
[origin: EP0070327A1] 1. Wooden collapsible work bench, consisting of a work top (12) and a rectangular upper frame (14) supporting the work top (12), there is a supporting leg (16) attached to each of the four corners of the frame (14), and these are connected near their lower ends by means of a lower rectangular frame (18), the frames (14, 18) are each made up of four fixed and interconnected wooden laths (20, 22, 24, 26 and 28, 30, 32, 34 respectively), the characteristic feature of this work bench is that the dimensions of the frames (14, 18) are designed so that the lower frame (18) can be fitted into the upper frame (14), and the legs (16) can be fitted into the lower frame (18).
