Abstract (en)
Transportable stand for rapid mounting. The transportable stand according to the invention comprises a base (12) to which are articulated two groups of longitudinal members (27, 28 and 29) which can open out parallel to define two rails (32) between which boards (40) can be locked; a jack (53) then enables the equipment to be swung up to obtain a tiered stand. The boards (40) contain fold-away seats.

Abstract (fr)
Tribune transportable à mise en oeuvre rapide. La tribune transportable selon l'invention comporte une embase (12) à laquelle sont articulés deux groupes de longerons (27, 28 et 29) susceptibles de se déployer parallèlement pour définir deux raies (32) entre lesquels des planchers (40) sont susceptibles de venir se verrouiller; un vérin (53) permet de faire ensuite basculer l'installation pour obtenir une tribune en gradins. Les planchers (40) renferment des sièges escamotables.
