Abstract (en)

[origin: WO8202959A1] The image to be visualized is placed against the front face (13) of a transparent plate (1) of plastic material, forming a light guide, lit through its cross section (2) by a neon tube (4) and a parabolic projector (5). The rear face (6) of the plate (1) being coated with a reflecting material layer (7), the image, a photographic negative or a slide, is lit and thus made visible.

Abstract (fr)

L'image a observer se place contre la face anterieure (13) d'une plaque transparente (1) de matiere plastique, formant guide de lumiere, eclairee par sa tranche (2) par un tube au neon (4) et un projecteur parabolique (5). La face posterieure (6) de la plaque (1) etant revetue d'une couche de matiere reflechissante (7), l'image, negatif photographique ou diapositive, est eclairee et est ainsi rendue visible.
