Abstract (en)
[origin: ES275401U] Packing, particularly of cardboard, of the type comprising a belt forming a base (1) that must be folded to wrap the objects to be packaged, characterized in that it comprises two lateral symmetrical legs (12 and 13) having such a length that after the folding of the belt (1) its ends can be applied against the larger surface of the package which is opposite to the surface that is integral with the legs (12 and 13), whatever the height of the possible lateral surfaces (2). And 3), an adhesive tape (26) being provided at least on the legs (12 and 13) and preferably for the entire extension extending from one end of one leg (12) to the end of the other (13). (Machine-translation by Google Translate, not legally binding)

Abstract (fr)
L'emballage est du type comprenant des éléments devant être rabattus par pliage : parois, volets, etc... Il est caractérisé en ce que l'un de ces éléments 1a comprend des pattes symétriques latérales 13 qui dépassent le contour de cet élément 1a et qui doivent être rabattues par dessus les parois 3 immédiatement adjacentes à cet élément 1a. Les pattes sont munies d'une bande adhésive, de préférence du type "double face" à ruban protecteur.
