Abstract (en)
[origin: US4460085A] The tool-chest comprises a rigid frame with deep storage compartments forming a central well, a base receptacle with other storage compartments located around the central well, and a level of tool suspensions on the periphery of the central well above the base receptacle; and a removable rigid lid designed to fit over guiding means provided on the rigid frame, said lid having a flat upper face provided with a recessed portion and an opening to allow the passage and housing-in of a frame handle topping the frame, the lid being adapted to serve as a stool or as steps.
