Abstract (en)
[origin: EP0076487A1] 1. Box for storing and making ready articles containing a slide-in part (121), which can be produced from a blank, can be folded after production and slid into a case (111), said part having a front wall (16, 120) which can be swung open and having lateral tongues (17, 126) which are at least partly guided in the box, characterized in that the tongues (17, 126) are guided between the side walls (12, 14, 123) of slide-in part (121) and those (112, 113) of case (111) and are constructed in such a way that they limit the swinging out of the front wall (16, 120).
