Abstract (en)

[origin: EP0077015A2] The chin strap is effective to be attached with one end to a projection (3) inside a crash helmet by means of a buckle (4), the snap fastener consisting of a receptacle (8) formed directly in the helmet outer shell (2), where to a lever (10) actuated dog (12), is pinned pivotally to allow a second buckle (15) to be locked thereby. The strap snap fastener (9) is fastened with the intermediary of a flat spring (16).
