Abstract (en)  
[origin: WO8203901A1] The pipe connector (3), particularly for a radiator, is made of a material which is harder than that of the pipe (2). The connector (3) has a profile (4), the pipe is applied by pressure on the profile of the connector, thereby the connector is associated to the pipe without threading.

Abstract (fr)  
Le raccord (3) pour tuyau, notamment pour radiateur, est constitue en un materiau plus dur que celui du tuyau (2). Le raccord (3) presente un profil (4), le tuyau est applique par pression sur le profil du raccord, ainsi le raccord est associe au tuyau sans filetage.
