Abstract (en)

[origin: EP0080943A1] 1. A holder for deodorising products comprising two parts hinged together, comprising a suspension hook suitable to fit on the lip of a sanitary appliance, particularly a WC bowl, so that the holder is subjected to the flow of flushing water, said holder, including the hook (C), comprising two portions (A, B) symmetrical about a longitudinal central plane of the hook and joined by a part thereof which forms a hinge joint or linkage (3) for opening and closing, characterised in that the two symmetrical portions (A, B) are adapted to press against each other and/or to overlap each other slightly, by gravity and if required by stretching, due to the position of the linkage or hinge joint (3) made in the upper part of the hook before being placed over the lip of the bowl.
