Abstract (en)

[origin: WO8300386A1] A container for holding a small quantity of liquid. The container comprises an elongated housing having (10) a fluid receptacle (18) disposed in the upper end (12) thereof. The dimensions of the receptacle are substantially less than the overall dimensions of the housing (10), thereby facilitating the handling of the container and inhibiting evaporation of the liquid therein.

Abstract (fr)

Le conteneur comprend un boîtier allongé (10) contenant un réceptacle de fluide (18) disposé dans l'extrémité supérieure (12) du boîtier. Les dimensions du réceptacle sont sensiblement inférieures aux dimensions totales du boîtier (10), ce qui facilite la manipulation du conteneur et empêche l'évaporation du liquide contenu.
