Abstract (en)

At least some of the contact strips (4) in the push connector, for resilient mounting on printed circuit board conductor paths (6), are designed as one piece with metal strips (5) which can be inserted in latching holes (8) of the printed circuit board (7), by which means a universal applicability of the connector (solder connector, push connector) is obtained. <IMAGE>

Abstract (de)

Bei dem Andruckverbinder sind wenigstens einige der zur federnden Anlage an Leiterplatten-Leiterbahnen (6) bestimmten Kontaktstreifen (4) einstückig mit in Rasterbohrungen (8) der Leiterplatte (7) einsteckbaren Metallstreifen (5) ausgebildet, wodurch eine universellere Verwendbarkeit des Verbinders (Lötverbinder, Andruckverbinder) erhalten wird.
