Abstract (en)
A packing tray comprising: main body means (2), said main body means including receptacle means (13) for retaining articles for packaging in boxes, characterized in that there are provided handle means (17, 18) external to said main body means (12), and in that said handle means (17, 18) are coupled to said main body means (12) so as to maintain the dimensions of said main body whereby said main body with said handle means (28, 29) can fit into the boxes in the same manner as without the handles. The tray is useful for stacking in boxes.
