Abstract (en)
The mortar comprises a barrel tube (1) connected to its baseplate (6) by a ball joint and a rigid bipod (2) fixed to a coupling sleeve (3) sliding on the barrel tube. The coupling sleeve has a device for self-locking on the tube which is disconnectable under the cushion force generated at the moment of firing, and the bipod is equipped with a means (8) for rolling and sliding on the ground and a joint (9) lockable in the firing position. <IMAGE>

Abstract (fr)
Mortier comprenant un tube-canon (1) rotulé sur sa plaque de base (6) et un bipied rigide (2) solidaire d'un manchon d'accouplement (3) coulissant sur le tube-canon. Le manchon d'accouplement comporte un dispositif d'autoverrouillage sur le tube, susceptible de disjoncter, sous l'effort de percussion provoqué au moment du tir, et le bipied est muni d'un moyen de roulement et de glissement (8) sur le sol et une articulation (9) verrouillable en position de tir.
