Abstract (en)

[origin: EP0088198A2] 1. Prefabricated element comprising a rigid slab (33, 45) made of a material having aggregates bound by a binder, and at least one plate (34, 46) of heat-insulating material comprising a non-hygroscopic synthetic material, characterised in that the plate (34, 46) of heat-insulating material is integral with the lower surface of the rigid slab (33, 45).
