Abstract (en)
[origin: EP0088990A2] In a tool holder (2) of a planing tool (1), having fitting pins (4) arranged on the tool holder (2) and capable of being inserted into fitting holes (5) provided in throw-away tools (3) and/or carbide cutting plates, the tool holder (2) and the throw-away tool (3) and/or the carbide cutting plate form a planing-tool unit which can be inserted into a planing machine, the fitting pins (4) protruding from the tool holder (2) by not more than the thickness of the throw-away tool (3) or the carbide cutting plate. In order to provide the particularly simple and reliable tool holder of a planing tool, the method of manufacturing this tool holder being considerably simplified in relation to the known methods, the fitting pins (4) are embossed from the tool holder (2). <IMAGE>
