Abstract (en)
[origin: EP0090310A1] 1. A preparation for washing and dye-preserving bleaching containing nonionic surfactants or mixtures of nonionic surfactants and zwitter-ionic surfactants, water-soluble polymers and bleaching compounds, characterized in that it contains water-soluble, synthetic polymers containing amino- and/or amido groups from the group comprising polyethylene imines, polyamines, polyamine amides and polyacrylamides together with active-chlorine or active-oxygen bleaches and water-soluble melamine or urea/formaldehyde polymers.
