Abstract (en)

[origin: US4448474A] A strain relief device is provided for use with a printed circuit card which has a plurality of circuit elements thereon which are soldered to the ends of wire conductors carried in a cable. The device comprises a pair of identical elongated clamp members each having locking elements which enable the members to be aligned on opposite sides of the card and snapped into locking engagement with the conductors clamped therebetween.

Abstract (de)

Zur Zugentlastung der Leiterzüge (11) von Schaltungskarten (13) und ähnlichen sind beiderseits der Schaltungskarte (13) zwei identische Klemmstücke (16, 17) gegeneinander ausgerichtet und miteinander verriegelbar.
