Abstract (en)

[origin: EP0092650A1] 1. A prefabricated cladding for chimney tops, smoke or ventilation outlets, which comprises mutually adjacent jacket plates (1) and can be mounted on the chimney, suspended therefrom, by webs (5, 13) supported on the upper side of the chimney, a respective angle section (12) being disposed in each corner of the adjacent jacket plates (1) on the outside thereof, characterised in that the webs (5, 13) are provided exclusively in the corner region of the cladding as part of a further angle section (3) which is formed by angled arms (4) on the jacket side and which can be mounted on at least two adjacent jacket plates (1).
