Abstract (en)
[origin: EP0094461A1] An elongate leaf (22a) is connected to a first member, e.g. a door (4), along substantially the whole of one longitudinal edge portion (26), the other longitudinal edge portion (28) being pivotable through an acute angle between an unlocking position and a locking position in which the edge portion (28) is capable of engaging an elongate step (18). The leaf (22a) is preferably pivoted by a bolt (29) connected to it.
