Abstract (en)
[origin: US4495031A] The invention makes possible a coking operation largely or completely eliminating waste water by converting the gas condensates obtained from the coking plant by a reverse osmosis process into a permeate which can be recycled to the coking operation, and a concentrated lye.

Abstract (de)
Nach der Erfindung wird ein weitgehend oder ganz abwasserloser Kokereibetrieb dadurch möglich, daß die aus dem Kokereibetrieb anfallender Gaskondensate mittels eine Umkehrosmose anlage [13] in ein in den Kokereiprozeß rückführbares Permeat [16] und eine konzentrierte Lauge [17] überführt werden.
