Abstract (en)

A method of preparing a piece of flexible sheet material (2) for a sewing or like joining operation along a curved edge (2 min) comprises distorting the material (2 sec) with said edge (2 min) free in such a way that the edge (2 min) is straightened in readiness for the joining operation. Apparatus for carrying out the method comprises a former (6) on which the material (2) can be located with the curved edge (2 min) overlapping one side of the former. Displacing means (32) displace the material (2 sec) with respect to the former so as to straighten the curved edge (2 min).
