Abstract (en)
[origin: EP0096308A2] 1. A fire-protection strip, in particular for a roof covering, with a flame-proof strip (2) which is disposed directly on at least one side of a sealing strip (1) and which at elevated temperature gives off a non-combustible fluid particularly in vapour form, characterized in that the fire-protection strip (2) is laid on the upper side of the roof or the like and the flame-proof strip faces the upper side.
