Abstract (en)
In a label overprinter or an overprinting applicator an arrangement for driving a label web (16) includes a roller (10) with a high friction surface and a substantial wrap-round of the web, and a rewind reel carrying a dancer roll (18) on an arm (22) which roll applies a tension to the web. A web reel mounting includes resilient fingers (84) supported around a shaft (80) and a frustoconical member (92) operative axially to expand the fingers (84) to engage the internal periphery of a reel.
