Abstract (en)
[origin: EP0101274A2] A card 1 is described which when used in conjunction with a photograph 3 forms a postcard-like whole. The card 1 has an adhesively coated edge portion 2 which prior to use is protected by a removable covering (not shown). The edge of the photograph 3 is pressed into engagement with the adhesive layer 2 so that the card and photograph are permanently joined together.
