Abstract (en)

[origin: EP0103507A1] 1. Improved sole for sports shoe, with subjacent projections procuring a good hold on the ground, for use in football, rugby, hockey on grass or like sports, comprising removable spikes, the threaded end of which is adapted to be screwed into a tapped boss of said sole, said sole being characterized in that it presents projecting lips (16), elastically deformable and tending to flatten when the sole is used, in combination with the tapped bosses (11) cooperating selectively with a variety of spiked (28 to 30, 34), said projecting lips (16), surrounding concentrically at least some of the tapped bosses (11).
