Abstract (en)

A wrapping and a method for wrapping rolls (2) of paper. The wrapping consists of stretch film (14) which is wound onto the paper roll (2), preferably in a number of layers, and which is arranged on the roll in such a manner as to extend beyond the edges thereof so as to form a rim (16). The rim is secured to a disc (6) which is positioned against the flat end face of the roll (2). During the wrapping-on of the film the paper roll (2) is supported on two rollers (20) which are arranged to rotate the paper roll.
