Abstract (en)

A boat is provided which is capable of use either as a canoe or as a sailing boat. The boat has a hull (2) a mast (6) selectively mountable on the hull (2) for use as such when the boat is in its sailing boat configuration or stowable on the hull (2) when the boat is in its canoe configuration, and a sail (20). A member is provided which is formed of a plurality of sections, which is usable, when the sections are connected together, as a paddle (44), and, when the sections are disconnected, is such that one section is usable as a boom (18) one section is usable as a centre-board (24), and one section is usable as a rudder (26).
