Abstract (en)

[origin: EP0109065A1] 1. A concrete brick for delimiting a playing area provided with artificial turf, having a slot (2) which extends over the entire length of the brick, for fixing an edge strip of the artificial turf by anchoring elements which are inserted into the slot, wherein the slot is connected to a water drain, characterized in that the slot (2) is of a wedge-shaped configuration, and has an undercut surface (2a) at one side, and that spaced-apart wedges (3) are arranged as anchoring elements in the slot (2) for clamping the edge strip against the undercut side of the slot (2), the wedges each having a step (3a) associated with the undercut configuration (2a).
