Abstract (en)  
In a mountain or walking boot, in particular with a plastic shell, the lining 5 is inserted loose and only connected to the shell or the shaft in the upper region 6. The lining 5 can be turned out of the boot. <IMAGE>

Abstract (de)  
Zu einem Berg- oder Wanderschuh, insbesondere mit einer Kunststoffschale, wird das Futter lose eingelegt und lediglich im oberen Bereich 6 mit der Schale bzw. dem Schaft verbunden. Das Futter kann aus dem Schuh herausgestülpt werden.
