Abstract (en)

A gripper for the automatic sewing of garments. The gripper comprises a body (1) with at least one operative face (3) and having an inner hollow space, at least one opening in said operative face leading to said hollow space, at least one stud (8) on each of the operative faces projecting slightly above said opening(s), and ducting means (2) for connecting said hollow space to air pumping means adapted to establish at will a reduced pressure within said hollow space.
