Abstract (en)  
[origin: ES8500114A1] This invention relates to an apparatus for profiling, truing or dressing, with precision, an abrasive millstone, by cutting using diamond tools. The apparatus comprises a truing head 15 consisting of a cylinder 16 which is provided with a series of separate retractable diamond tools 17, each of which is capable of being rigidly locked opposite the truing station of the millstone.

Abstract (fr)  
L'invention concerne un appareil destiné à profiler, dresser ou ribler avec précision une meule abrasive, par taillage à l'aide d'outils diamantés. L'appareil comporte une tête de dressage (15) comportant un bâillet (16) muni d'une série d'outils diamantés distincts rétractables (17), susceptibles d'être bloqués chacun rigidement en face du poste de dressage de la meule.
