Abstract (en)

[origin: EP0114772A2] 1. A blank of cardboard, corrugated cardboard, or other material in sheet form, of the type comprising, in one piece, for making up a pack, a plurality of side panels (12) which are successively hinged in two by parallel bend lines (13), hereinafter referred to for the sake of convenience as main lines, and, beyond root bend lines perpendicular to said main bend lines (13), flaps (18) each individually extending some at least of said side panels (12) with, pre-cut in at least some successive ones of the side panels (12), parallel to the root bend lines (16) of the flaps (18) extending same, a detachable strip (27), characterized in that a tongue portion (20) is cut out in each two flaps (18A) extending two opposite side panels (12A), which tongue portion (20) itself extends from a root bend line perpendicular to the main bend lines (13) and the length (L1) thereof, as measured perpendicularly from a bend line which can be superposed in relation to the root bend line (16) of the corresponding flap (18A) or which is coincident therewith, is greater than the length (L2) at which there is provided, with respect to said root bend line (16), that one of the pre-cut lines (28) of the detachable strip (27), which is closest to said root bend line (16), said tongue portion (20) being intended to form a tab for projecting on the inside face of the cover to be formed, for re-closure thereof.
