Abstract (en)  
[origin: EP0119165A2] 1. Projecting plate connection member for the insulated, non-positive connection to a projecting plate, with a parallelepipedic insulating member (2) and reinforcing rods passing through the same, characterized in that the reinforcing rods (3-6) are constructed as closed loops in a vertical plane, which are interconnected by transverse rods (7-14) running approximately parallel to the parallelepipedic insulating member (2) and in that the upper and lower parts of each loop (3-6) are interconnected by means of a clip (39).
