Abstract (en)

[origin: EP0119536A1] 1. Process for the production of elastic articles on flat knitting machines, characterized in that a bare elastane yarn is knitted together with the main yarn, which elastane yarn is drawn off the spool overhead, provided with a specified pretension by means of a sintered ceramic yarn brake, and transported to the yarn guide of the flat knitting machine via deflecting elements in the form of rollers.
