Abstract (en)
1. A seat and/or back cushion (11, 12) of a first foamed plastics material, made of an open-pore polyurethane foam with a particular indentation hardness and density, in which is foamed at least one foamed plastics body (131-137) at right angles to the seat direction to form a foamed plastics reinforcement, which provides the cushion with greater indentation hardness than that of the first foamed plastics material, the foamed plastics bodies (131-137) themselves forming the reinforcements, characterized in that the foamed plastics bodies (131-137) consist of a second foamed plastics material, namely closed-pore polyurethane foam or open-pore melamine foam or the like, whose density is lower and whose indentation hardness higher than those of the first foamed plastics material.

Abstract (de)
Sitz- und Lehnpolster (11,12) aus Schaumstoff, in das Versteifungskörper (131, 132, 133, 134) aus Schaumstoff höherer Eindruckhärte und geringerer Dichte eingeschäumt sind. Die Versteifungskörper sind Platten (133) oder Prismen (131, 132, 134), die quer zur Sitzrichtung liegen, oder an den Enden U-förmig gebogene Platten. Die Versteifungskörper sind aus geschlossenporigem Polyurethanschaum oder offenporigem Melaminschaum; der umgebende Schaumstoff ist offenporiger Polyurethanschaum.
