Abstract (en)

[origin: EP0121485A1] 1. Corrugated board packaging comprising a tray having tow opposed walls of height greater than that of the other two walls, and a box, characterized in that the height of the taller walls (6) of the tray (2) is greater than the height of the box (3) in which the tray is intended to be housed, such that each said wall has, at a distance from the base of the tray equal to the height of the box, a fold line (14) parallel to the lower edge of said wall, separating the upper edge thereof from an extension flap (13) folded towards the interior of the tray, whilst the box (3) includes a casing (15) of which the single upper end is provided with two pairs of flaps (17, 18) adapted to cover the entire upper surface of the casing.
