Abstract (en)

Method of manufacture of metal boxes of tinned strip by drawing, consisting of providing box-like bodies (7, 7a) all identical to one another and with open inlet, making up the actual containers and relative lids, and inserting in one of such bodies a tubular core made of plastic material (3), projecting from the container for simultaneously forming the removable connection element (3a) with another lid forming box-like body (7a), and in case also a container with inner shaped surfaces.
