Abstract (en)
[origin: EP0122565A2] 1. Electrical plug-and-socket connection, in particular for proportional flow counters, having a plug insert (B) and a matching piece, in particular a socket insert (A), with the contacts necessary for the electrical supply, characterized by two additional lead-throughs (5) inside the inserts A and B which form two gas couplings for the supply and removal of gas through the plug-and-socket connection.
